Find Your workmate

WE HAVE BEEN THE WORKERS' BEST MATE FOR 30 YEARS

Our mission is to make everyday life easier for each and every worker who has to handle and/or move material. We want to be a strong and stable workmate who is always there to back you up. Our products make the working day not only simpler, but also safer and easier on your back, knees and arms.

Comprising around 1,800 standard products, the "Your workmate" range can handle the majority of requirements on the market. All our trolleys are in stock and will be shipped out within two working days after receiving your order. If you have specific wishes and needs, we can certainly accommodate them as well.

FIND YOUR WORKMATE

There are several ways to find the right product for your business. The facing page presents three simple routes into our range of trolleys.

For detailed information about all our trolleys, visit **www.kongamek.com.** Our website features information in eleven languages, and you can search by product category or sector. Can't find what you're looking for? Please do not hesitate to contact us.

Your workmate, Kongamek

HOW TO FIND YOUR WAY AROUND THE CATALOGUE

FIND WHAT YOU'RE LOOKING FOR WITH WORKMATE NAVIGATOR

This catalogue is divided into product categories to make it easy for you to find precisely the type of trolley you are looking for. Use the tab on the last page of the catalogue – Your workmate navigator – to turn quickly to the right product in our range.

Each of our 25 product categories has its own symbol, and we use these same symbols in all our information channels. This helps you recognise the different products in our range.

WHEN YOU KNOW THE ITEM NUMBER YOU NEED

If you already known the item number of the product you are looking for, turn to the index, at the back in the catalogue where you will find all the item number in numerical order.

THE RIGHT PRODUCT FOR YOUR SECTOR

At first glance, the differences between two products might seem small. However, for the people who actually work with the trolleys, even small details can make a big difference.

Each trolley is labelled with a symbol indicating the sector(s) to which it is particularly well-suited. If you are looking for a product designed for a specific type of business, visit **kongamek.com** and select your sector.

CAN'T FIND WHAT YOU'RE LOOKING FOR?

Send an email to **info@kongamek.se** or call us on **+46 10-130 66 00**.

We keep the castors turning all over Europe

KONGAMEK PRODUCTS ARE USED THROUGHOUT EUROPE. OUR BROAD NETWORK OF RETAILERS HELPS US PROVIDE CUSTOMERS WITH THE BEST POSSIBLE SERVICE. OUR AIM IS ALWAYS TO SHIP WITHIN TWO DAYS OF A CUSTOMER PLACING AN ORDER. IN ORDER TO MEET THE DEMANDS OF EVERY MARKET, OUR WEBSITE – **KONGAMEK.COM** – PUBLISHES INFORMATION IN 11 LANGUAGES.

SWEDISH ENGINEERING

Kongamek is born of authentic Swedish industrial traditions. All areas of the business are distinguished by advanced technological know-how, a high degree of automation, and top quality in every area.

5-YEAR WARRANTY ON ALL TROLLEYS

We want customers to feel confident in dealing with Kongamek. We know that our products deliver on our promises, which is why we offer a 5-year warranty on all trolleys.

EASY TO FIND ASSISTANCE

Our customer service department can always help during office hours. And if you need assistance at other times – and cannot find the answers on our website – you can email us at **info@kongamek.se** and we'll get back to you the following working day.

Customised trolleys in a few weeks

Our target is to always be able to offer a competetive transport solution. If you cannot find what you need in our standard "Your workmate" range, we will be happy to design a customised trolley.

This could involve everything from adapting the distance between shelves, adding special castors, or changing the colour, to developing special solutions for tipping and locking functions, load capacity and articulated designs. As workmates, we do everything we can to solve customers' problems – no matter what the challenge may be.

Our ambition is to be fast and attentive. From the time you approve our drawing, we need approx. 4–6 weeks to complete your customised trolley. Our short lead times are possible thanks to our flexible organisation, extensive experience and the broad range of standard and customised products that serves as our base.

WE HELP YOU EVERY STEP OF THE WAY TO FINISHED PRODUCT

To request a customised product, simply visit our website or contact your sales representative.

If you have any questions about customised solutions, contact our design department. You can contact our Internal sales department on **+46 10 130 66 00** or by email to **special@kongamek.se**.

When you have special requirements

STAINLESS

Kongamek supplies a wide range of stainless trolleys in several corrosivity categories as defined in ISO 9223. These trolleys span everything from the economical KM 18/0 models (C2) to the more corrosion-resistant KM 18/8 range, and our fully welded trolleys (C3), which are built to meet the stringent demands of professional environments such as restaurant kitchens, hospitals and the food industry. All production of stainless trolleys is carried out in separated manufacturing processes. By using advanced welding technology and quality assured materials, we make sure that our trolleys meet all requirements on function, durability and hygiene. These trolleys are supplied with a 5-year warranty.

STAINLESS TROLLEYS AND ISO 9223 CORROSION CLASSIFICATION

Examples of environments where corrosion-classified, stainless trolleys of the appropriate quality come into their own

Category	Corrosivity	Indoor use, example	Outdoor use, example	Stainless steel quality
C1	Very low	Offices, schools, museums	Dry or cold zones: Central Arctic, Antarctic, some desert areas	4016, 4521, 4307, 4372, LDX 2101®
C2 KM 18/0	Low	Unheated warehouses, sports halls	Temperate zones: Industrial areas and small towns. Dry or cold zones: Desert areas and subarctic regions	4016, 4521, 4307, 4372, LDX 2101®
C3 KM 18/8 KM fully welded stainless steel	Medium	Food industry, laundries, breweries, dairies	Temperate zones: Urban environments and coastal areas with low levels of chloride deposits. Subtropical and tropical zones: Areas with low pollution	4521, 4301, 4404, LDK 2101®, 2304
C4	High	Industrial process facilities, swimming pools	Temperate zones: Polluted urban environments, coastal areas without splashing and exposure to de-icing salts. Subtropical and tropical zones: Areas with medium pollution	4404, 4438, 4439, 904L, 254 SMO®, 4565, 2304, 2205, 2507

Kongamek stainless trolleys made of 18/0 material match category C2.
Kongamek stainless trolleys made of 18/8 material match category C3.
All fully welded Kongamek stainless trolleys made of EN 1.4301 material match category C3.
On request, Kongamek manufactures C4 category trolleys using EN 1.4404 material.

STATIC ELECTRICITY (ESD)

Many activities – especially those involved in manufacturing electronics – require protection against static electricity when handling and moving materials. To cover these needs, Kongamek has a category of products approved for use in ESD-protected environments.

HEAVY LOADS

We have developed a broad selection of trolleys specially adapted to handle the really heavy jobs. In addition to featuring a robust and hard-wearing design, these trolleys are highly manoeuvrable and built to handle loads weighing from 500 kg and upwards. The choice of wheels, treads and wheel positioning have all been optimised to ensure the trolley keeps running smoothly, despite the weight of the load. The maximum load is stated for each trolley in the catalogue.

Ergonomics and safety in focus

Everyone has the right to a safe and secure workplace. This is one of the cornerstones of the "Your workmate" concept and a consideration that permeates all product development work here at Kongamek.

We want our products to be more than something that just gets the job done – they should also be designed in an ergonomically correct and safe manner. We want to be the best in the business in this area, which is why we have chosen to challenge ourselves by placing great emphasis on ergonomics in a new range of products.

Ergonomics has to do with meeting people's needs and living up to their expectations. No two people are exactly alike, and conditions vary from one workplace to the next. This means that the tools we use must be just as flexible and adaptable as the people who use them. The knowledge we have built up over the past 30 years from interacting with our customers is helping us to develop safer, more secure solutions that give each and every worker the chance to enjoy a long working life.

INNOVATION WITH CONSIDERATION

Talk to us if you would like to find out more about our approach to ergonomics and the work environment.

Choose the right workmate

THE "YOUR WORKMATE" RANGE FEATURES 1,800 STANDARD PRODUCTS THAT COVER DIFFERENT NEEDS AT THE WORKPLACE. TO FIND THE RIGHT TROLLEY FOR YOUR PARTICULAR BUSINESS, START WITH THE SIMPLE GUIDE BELOW.

CASTORS

The castors are the most important component of the trolley. The choice of castor affects not only load capacity, but also manoeuvrability and noise level. As a rule of thumb, the heavier the load you have to transport, the bigger and coarser the castors you will need.

ASK YOURSELF:

– How much weight does the trolley need to carry?
– What surface(s) will the trolley be operating on?
– Will the trolley be used indoors or outdoors?

MATERIALS

Give some thought to how and where you will be using the trolley, and whether there are any special requirements you need to take into account in the work environment. For example, you may need a robust, hard-wearing steel model, or a stainless trolley that meets the hygiene requirements in a restaurant setting.

ASK YOURSELF:

– What is the trolley to be used for?
– In what environment(s) will you be using it?
– Do any special requirements apply to this environment?

LOAD SURFACE

The type of load to be transported affects the need for space, stability and adaptability on the trolley. On some types of trolleys, you can adjust the layout of the shelves. Don't forget that this function may affect the maximum load.

ASK YOURSELF:

– How heavy of a load does the trolley need to handle?
– Do you need to be able to move or adjust the angle of the shelves?
– Do you need a trolley with walls on one or more sides?

The answers to these questions will help determine the best material for the shelves, walls and edging, and may affect the flexibility of the trolley solution.

ACCESSORIES

All kinds of accessories are available to help make the working day a little easier for the user. Optimising the trolley function will allow staff to work more efficiently, responsibly and safely. Common accessories include: writing tablets, mesh sides, ladders and shelf dividers.

ASK YOURSELF:

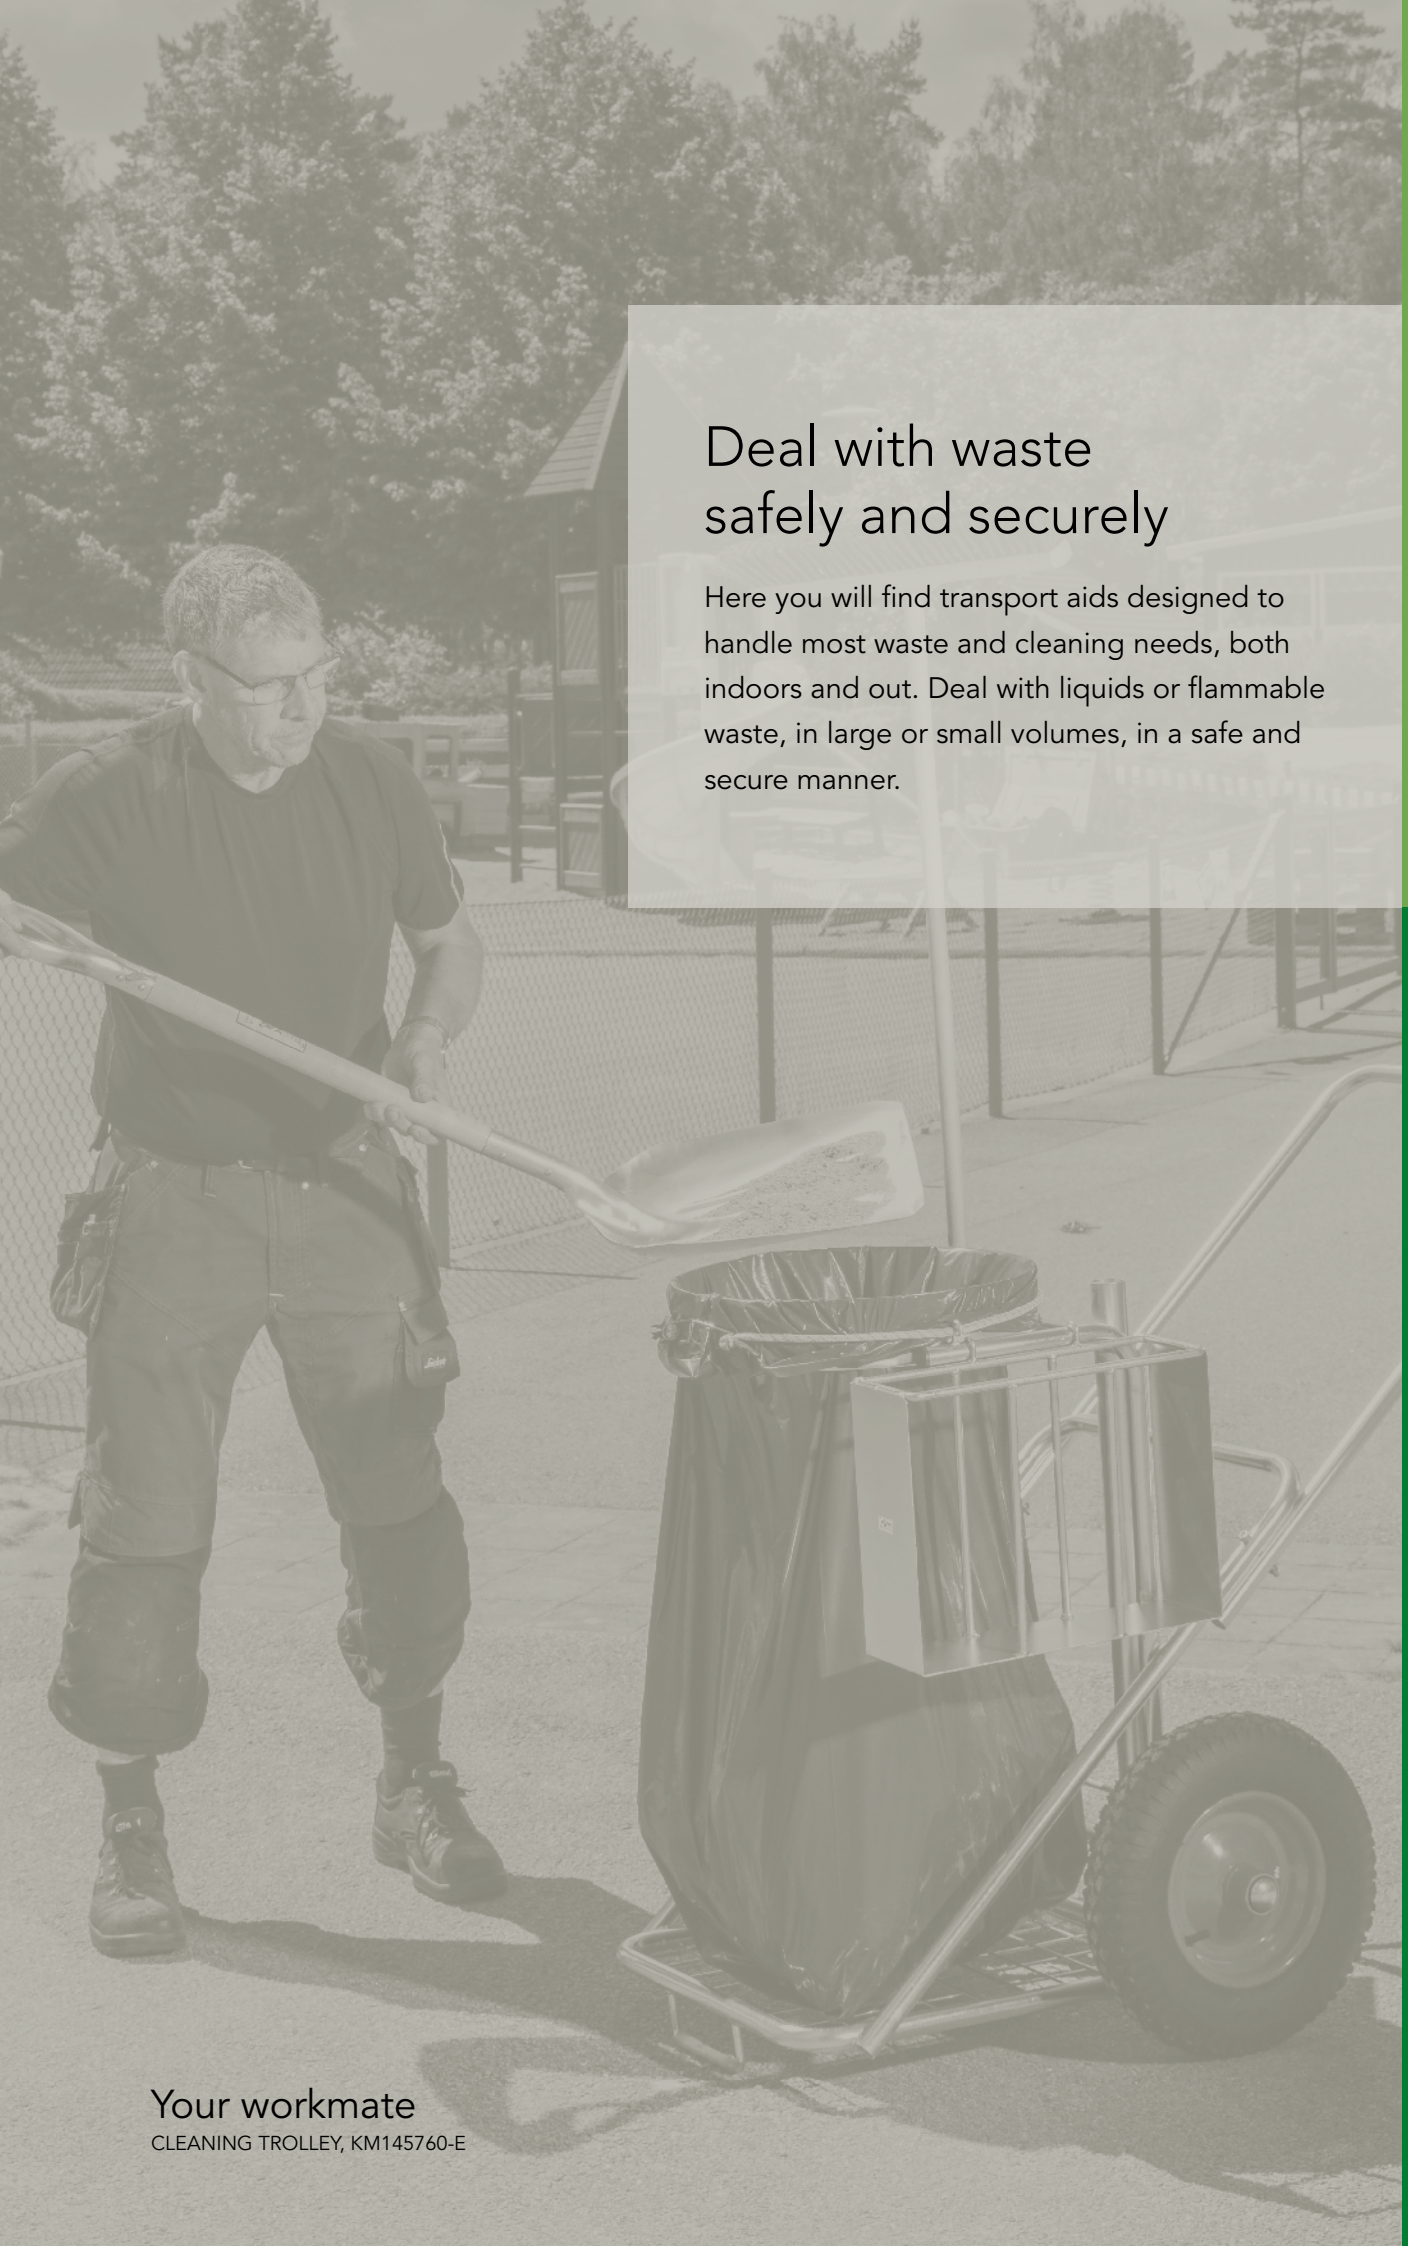

– Will adding accessories optimise the trolley function?
– Are there any risks to take into account?

If you need help finding the right trolley for your company, please do not hesitate to contact us.

If you cannot find the trolley you are looking for in our standard range, we can help you put together a customised model.

Deal with waste safely and securely

Here you will find transport aids designed to handle most waste and cleaning needs, both indoors and out. Deal with liquids or flammable waste, in large or small volumes, in a safe and secure manner.

CONSTRUCTION TROLLEYS

Smart solutions make the job easier

Our well-designed and hard-wearing products for craftsmen feature smart functions that make the working day easier in all sorts of ways.

Your workmate

TOOL TROLLEY, KM9199

COIL CRADLE

Powdercoated. Suitable for single coil tape, 16 - 19 mm wide. Banding tools and steel straps are not included.
Castors: 2 fixed. Castors diameter: 200 mm.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM216	Blue	990 x 460 x 640 mm	-	No

PNEUMATIC WHEELS CONSTRUCTION TROLLEY

Powdercoated. Castors: 2 swivel 2 fixed. Castors diameter: 260 mm.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM08425	Blue	1000 x 700 x 1250 mm	500 kg	No

BOARD LIFT

Adjustable height, 1790 - 3000 mm. Castors: 5 swivel 1 with brake. Castors diameter: 100 mm.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM08300	Blue	1820 x 800 x 1790 mm	70 kg	Yes

TILTABLE BOARD LIFT

Adjustable height, 1790 - 3000 mm. Tiltable. Castors: 5 swivel 1 with brake. Castors diameter: 100 mm.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM08350	Blue	1820 x 800 x 1790 mm	70 kg	Yes

PLASTER BOARD TRESTLE

Powdercoated. Sold per pcs.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM08375	Blue	1095 x 525 x 665 mm	400 kg	-

BOARD TRUCK

Tiltable. Castors: 2 fixed 4 swivel 2 with brake. Castors diameter: 160 mm.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM08200	Blue	1900 x 700 x 1490 mm	500 kg	Yes

TOOL TROLLEY

Powdercoated. Powerfull locking rule that is locked with padlock. Castors: 2 swivel 2 fixed. Castors diameter: 400 mm.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM9199	Blue	1260 x 760 x 720 mm	400 kg	No

PNEUMATIC WHEELS TOOL TROLLEY

Powdercoated. Powerfull locking rule that is locked with padlock. Castors: Pneumatic wheels 260 mm . Castors diameter: 260 mm.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM9202	Blue	940 x 620 x 610 mm	250 kg	No

Accessories: FS284, FS307.

PUNCTURE FREE WHEELS TOOL TROLLEY

Powdercoated. Powerfull locking rule that is locked with padlock. Castors: Puncture free wheels. Castors diameter: 260 mm.

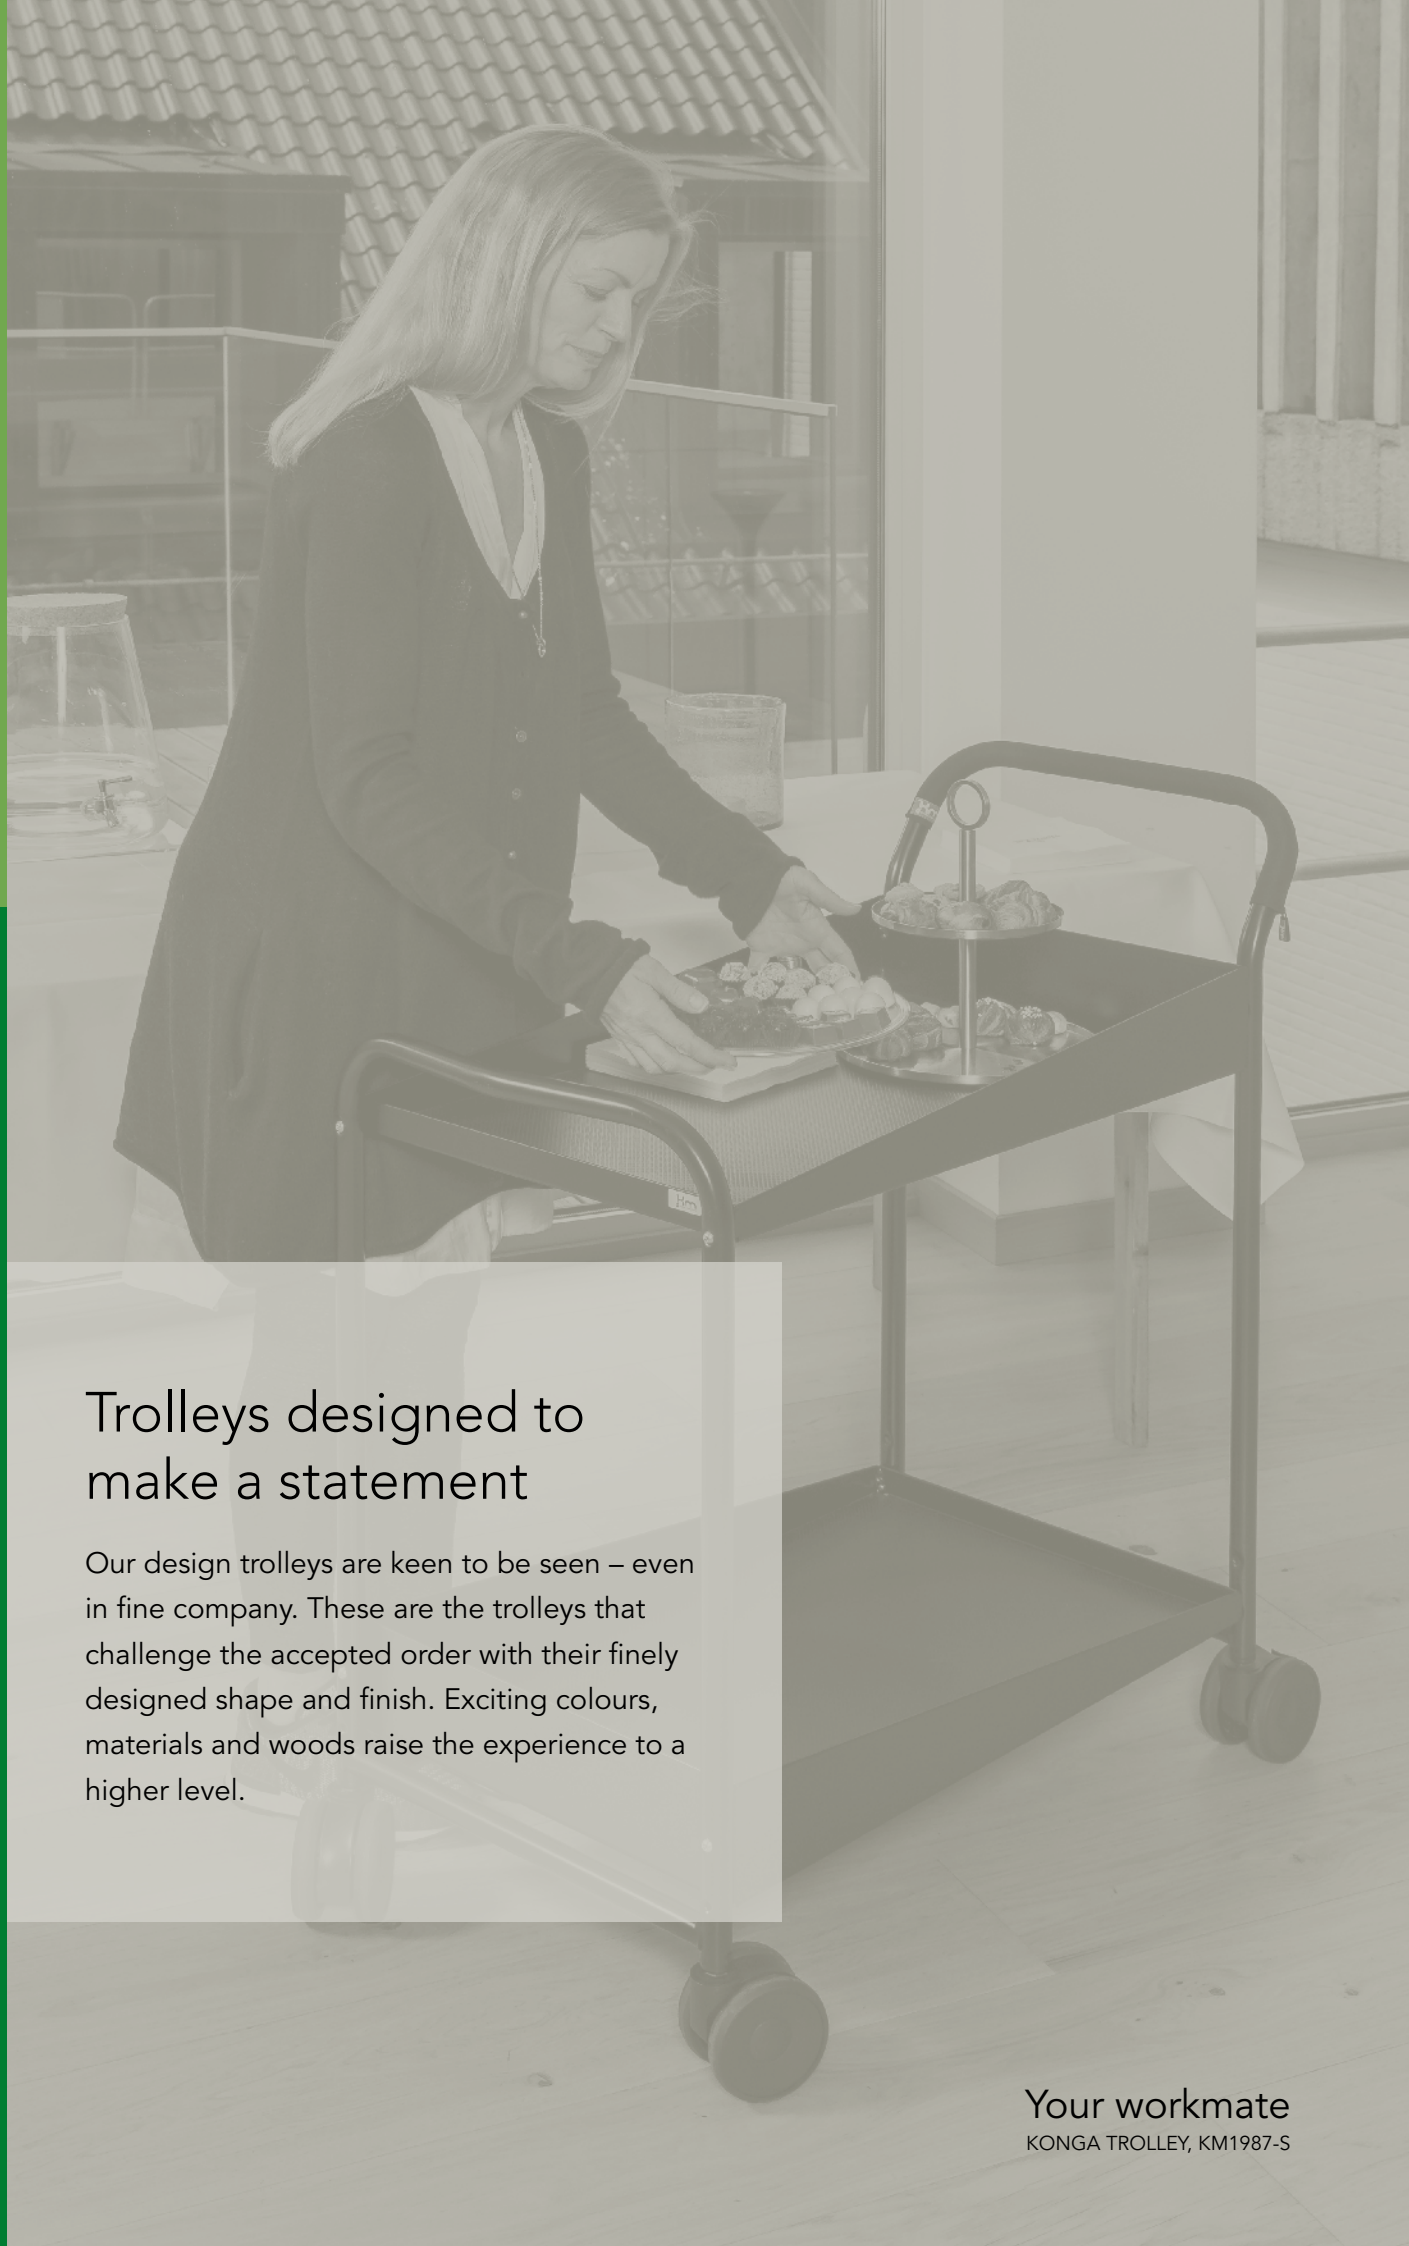

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM9202PF	Blue	940 x 620 x 610 mm	250 kg	No

Accessories: FS284, FS307.

DESIGN TROLLEYS

Trolleys designed to make a statement

Our design trolleys are keen to be seen – even in fine company. These are the trolleys that challenge the accepted order with their finely designed shape and finish. Exciting colours, materials and woods raise the experience to a higher level.

KM1987-V	White	866 x 455 x 980 mm	150 kg	Yes

For special requirements

When the requirements are high on protection against static electricity, we have the solutions. Kongamek's ESD trolleys meet the requirements of the international ESD standard IEC61340-5-1. This means that all shelves must have dissipative properties and have electrical contact with the ground, this is ensured by ESD carpets on the shelves which are connected to the chassis, which in turn has contact with earth via the conductive wheels. We measure our ESD trolleys according to IEC61340-5-1, the trolleys meet the requirements for resistance to ground (Rg) of max 109 / 1GΩ and surface resistance (Rp-p) of max 109 / 1GΩ.

ESD BIN TROLLEY

Suitable for Euroboxes 600 x 400 mm. Add rails (KM167-G) and shelves (KM167-H). 63 holes, cc 25mm, rails/shelves are mounted horizontally or in angles 16, 30 or 40 degrees. Castors: 4 swivel. Castors diameter: 100 mm.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM167-ESD	Electro galvanised	470 x 858 x 1880 mm	150 kg	No
KM167-ESDB	Electro galvanised	470 x 858 x 1880 mm	150 kg	Yes

Accessories: KM167-G, KM167-H.

ESD PLATFORM TROLLEY

ESD adapted shelves. Height to first shelf: 180 mm. Castors: 4 swivel. Castors diameter: 100 mm.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES

HEAVY DUTY TROLLEY

Get the job done indoors and out

When you need to move a heavy load, our heavy duty trolleys are the way to go. With their large wheels, these trolleys can follow you everywhere: over uneven surfaces, through building sites, indoors and out. Our heavy duty trolleys are ideal for use in most settings, and we can fit them with mesh sides or wooden walls.

Connectable system

The Konga Moving System features several types of trolley with train couplings. This function is available on everything from versatile, all-round trolleys to shelf trolleys, pallet trolleys and platform trolleys, which can be linked up to form a “train” of the desired length and capacity.

Your workmate

ALLROUND TROLLEY WITH TOWING PACKAGE, KMKPH-109

A truck for every job

The trucks in our range cover all kinds of areas of use: luggage, gas bottles, tanks, tyres and furniture – to name but a few. They have collapsible load surfaces, ergonomic handles, support hoops and large wheels for extra-heavy loads.

For long and heavy loads

Our robust material handling trucks are specially designed for transporting long and heavy loads, both indoors and out. The large wheels make these trucks easy to operate and remarkably stable – on uneven surfaces, too.

Stable and manoeuvrable

Platform trolleys are the perfect workmate for heavy, demanding jobs. The solid design and robust castors make these trolleys particularly stable and hard-wearing. Choose from a variety of sizes, surface finishes and accessories to match the trolley to your specific working environment.

Your workmate

PLATFORM TRUCK, KM533

A versatile partner

Our picking trolleys are versatile and adaptable. Add different accessories to create the perfect trolley for the tasks you need to execute. For example, a ladder may make it easier to pick from high shelves, or a centre-mounted wheel could help reduce the turn radius for use in tight spaces.

Your workmate

PICKING TROLLEY MODUL 600, KM600

PICKING TROLLEY 2 LEVELS

Electro zink plated with laminated board. 2 shelves. Height to first shelf: 230 mm. Distance between shelves: 520 mm.
Shelf capacity: 150 kg. Castors: 2 fixed 4 swivel. Castors diameter: 200.125 mm.

PRODUCT	COLOUR	DIMENSIONS (LxWxH)	LOAD	BRAKES
KM8500-2M	Electro galvanised	900 x 630 x 1100 mm	300 kg	No
KM8500-2L	Electro galvanised	1300 x 630 x 1100 mm	300 kg	No

Accessories: KM145-L, KM07401.

PICKING TROLLEY 3 LEVELS

Electro zink plated with laminated board. 3 shelves. Height to first shelf: 230 mm. Distance between shelves: 320 mm.
Shelf capacity: 100 kg. Castors: 2 fixed 4 swivel. Castors diameter: 200.125 mm.

For demanding environments

Our stainless trolleys are divided up into corrosivity categories in line with the ISO 9223 standard. Advanced manufacturing processes and quality assured materials allow us to ensure that our trolleys meet all requirements on function, durability and hygiene.

Take care of the boards

Our board trolleys are divided into different levels, depending on what your business needs. The small solutions can handle light materials, while the big ones are designed to cope with more boards and heavier weights. You can also add extra brackets if need be.

The fast way to get around

Using a scooter is the fast and efficient way to move between workplaces. Rubberised handlebars and a non-slip coating on the footplate provide extra safety and comfort. Choose between a 2-wheeler for fast transfers or a 3-wheel model with a platform for carrying loads.

SCOOTER

Castors that keep your business rolling

FOR MORE THAN 20 YEARS, WE HAVE BEEN WORKING CLOSELY WITH TENTE – THE BIGGEST WHEEL AND CASTOR MANUFACTURER IN EUROPE TOP QUALITY CASTORS FROM TENTE ARE USED ON THOUSANDS OF MOBILE SOLUTIONS ALL OVER THE WORLD. THROUGH OUR WORKING RELATIONSHIP, WE ENSURE THAT OUR PRODUCTS PRESENT THE BEST POSSIBLE FUNCTION AND ERGONOMICS.

A bit of castor knowledge

THERE ARE SOME FUNDAMENTAL PRINCIPLES THAT ARE GOOD TO KNOW WHEN CHOOSING CASTORS FOR YOUR TROLLEY

- Big castors run more smoothly than little ones
- Hard castors have lower rolling resistance than soft ones
- Castors with a soft contact surface damp down noise and vibrations better than hard castors
- Hard castors work best on soft surfaces, and vice versa
- Double castors swivel more easily than single castors

THE BRACKET THAT HOLDS THE WHEEL CAN BE FIXED OR SWIVEL

Wheels with a swivel bracket are often called "castors", and are available with or without brakes. Some brackets are also available with direction lock and/or brake in the direction of travel. It is common to combine two different types of bracket on the same product.

Move heavy loads without straining

It takes 40 kg of force to start a trolley with a loaded weight of 400 kg. To facilitate the handling of heavy loads, we recommend fitting "e-drive flex", the electric power drive solution from Tente.

E-drive flex not only provides start assistance, but also helps to make turns and complete other manoeuvres. The powered drive helps staff work more efficiently, while reducing stresses and strains – and the risk of developing pain in the neck, back and joints.

E-drive flex is distinguished by a robust, powerful design including replaceable wheels. The drive wheel retracts in standby mode, leaving the space beneath the trolley unobstructed. The system features stepless speed adjustment (forward and reverse), and the ergonomic handles are fitted with LED diodes displaying system functions and battery level.

E-drive flex can be easily retrofitted to most trolleys. Max. weight: 400 kg.

ASK US

We at Kongamek have extensive knowledge about wheels and castors, and we will make sure your trolley has the best possible castors.

THE PRINCIPAL CRITERION FOR CHOOSING THE MATERIAL IS THE WEIGHT CAPACITY YOU NEED

- Polypropylene is usually sufficient for small trolleys.
- Polyamide/"nylon" is a strong synthetic material that can handle loads weighing hundreds of kilos.
- Aluminium, steel and cast iron are typically used for heavier assignments.

THE CASTOR COATING DETERMINES ROLLING PROPERTIES AND WEIGHT CAPACITY

Hard castors – such as polyamide castors – are supplied without coating. Rubber and polyurethane coatings are available in different degrees of hardness, although rubber coatings are generally softer and cheaper, while polyurethane ones are harder-wearing. Soft wheel treads deal better with uneven surfaces than hard ones.

BEARING TYPE IS DEFINED BY WEIGHT AND HOW MUCH THE TROLLEY IS TO TRAVEL

If the trolley is light, it is not usually necessary to choose special bearings. Ball bearings provide the least rolling resistance.

Design your castors

You can now design your own castor walls. Highlight your brand, adapt the trolley to match the surroundings, or come up with a distinctive appearance that is sure to attract attention.

The choice is yours – we can design castors to match your wishes exactly. Through our partner Tente, we can apply a fully personalised design to LINEA castors with diameters of 65, 75 and 100 mm, and to flat castor walls with diameters of 75 and 100 mm.

Contact us for advice and guidance.

Common castors & wheel types

LIGHT TROLLEYS *Trolleys with a capacity of up to 150 kg*

1.

2.

WHEEL TYPE	MATERIAL TREAD	DIAMETER	BEARINGS	PROPERTIES
1. Castor, standard	Polyurethane	100-125mm	Slide bearings	Hard-wearing tread. Low rolling resistance
2. Castor, standard	Thermoplastic rubber	100-125mm	Ball bearings	Lower start force due to ball bearings in the wheel hub. Improved manoeuvrability on account of double rows of bearings in the ball race. Quieter thanks to the softer tread.

MEDIUM TROLLEYS *Trolleys with capacities up to 250 kg*

3.

4.

5.

6.

7.

8.

9.

WHEEL TYPE	MATERIAL TREAD	DIAMETER	BEARINGS	PROPERTIES
3. Castor, standard	Thermoplastic rubber	100-125mm	Ball bearings	Lower start force due to ball bearings in the wheel hub. Improved manoeuvrability on account of double rows of bearings in the ball race. Quieter thanks to the softer tread.
4. Flat-free	PU foam	100-125mm	Ball bearings	A lot quieter on account of the soft tread. Gentler transport of goods. Easy to negotiate obstacles (door sills, for instance) on account of the softness of the tread.
5. Design	Thermoplastic rubber	100-125mm	Ball bearings	Less start force. Springy synthetic material with low noise level. Easy to clean on account of the smooth surfaces.
6. Castors, double	Polyurethane	100mm	Ball bearings	Improved mobility and manoeuvrability due to the double wheels. Design castors in synthetic material with a spring effect; own print available on castor walls. Easy to clean on account of the smooth surfaces.
7. Central locking	Thermoplastic rubber	125mm	Ball bearings	Multi-functional castors where you can switch between functions: four casters/direction lock/central locking. Low noise level. Easy to clean on account of the smooth surfaces.
8. ESD	Solid rubber	75-125mm	Ball bearings	Less start force. Low noise level. Excellent at negotiating obstacles.
9. Stainless	Thermoplastic rubber	125mm	Ball bearings	Corrosion resistant. Springy synthetic material with low noise level. Easy to clean on account of the smooth surfaces.

HEAVY TROLLEYS *Trolleys with capacities from 300 kg*

10.

11.

12.

13.

14.

15.

WHEEL TYPE	MATERIAL TREAD	DIAMETER	BEARINGS	PROPERTIES
10. Solid rubber	Rubber	160-200mm	Roller bearings	Universal castors, functions indoors and out. Less rolling resistance on account of roller bearings in the axles.
11. Nylon	Polyamide	160-200mm	Roller bearings	Low friction against the surface, results in low start force. Higher load. Does not become flat if the wheel is left under a load for a long time.
12. Elastic	Elastic rubber	160-200mm	Roller bearings	Extremely low noise level on account of soft tread. Gentler transport of goods. Works well indoors, outdoors and in trolley trains.
13. Heavy load	Polyurethane	160-200mm	Roller bearings	Low start force. High load. Extremely hard-wearing tread; also functions in trolley trains.
14. Air rubber	Rubber	260-400mm	Roller bearings/ Ball bearings	Designed for tough environments and uneven surfaces. Easily negotiates obstacles. Low noise level.
15. Flat-free	Rubber	260-400mm	Roller bearings/ Ball bearings	Improves reliability and cuts down on wheel replacement. Easily negotiates obstacles and uneven surfaces. Low noise level.
